

THE BUNGALOW

[the LITE green project] agreement

I believe that a healthy environment is necessary for my successful business.

I will incorporate bite-sized eco-actions into my business and personal life.

My eco-actions will look like the following:

- Create a recycling program and conserve energy
- Encourage my customers to become **lite** green
- Buy more products that are eco-friendly like recycled paper, organic cotton, beauty goods
- Waste less and act more environmentally responsible

These are specific idea/s I have and agree to commit to:

I will record and share my eco-actions with my community.
